Agency form number(s)	NA	NA	
Annual reporting and record keeping hour burden			
Number of respondents	950	950	
Total annual responses	950	950	
Percent of these responses collected electronically	100%	100%	
Total annual hours	14,250	14,250	
Difference	0		
Explanation of difference	NA		
Program Change			
Adjustment	NA		
Annual reporting and record keeping cost burden (in thousands of dollars)			
Total annualized capital/startup costs	\$0	\$0	
Total annual costs (O&M)	\$0	\$0	
Total annualized cost requested	\$0	\$0	
Difference	\$0		
Explanation of difference	NA		
Program Change			
Adjustment	NA		
Other change** The Office of Federal TRIO Programs proposes to modify Section IIA of the currently approved annual performance report for the Upward Bound and Upward Bound Math-Science programs, which grantees have used since the 2003-04 school year to record data on individual students. The form currently asks for math, verbal, and combined scores for the SAT exam, which many participants take (fields 49-51). Following the development of Section IIA, the College Board released a revised version of the SAT that includes a new writing section separate from the math and verbal components; students began to take the new SAT in March 2005. As Section IIA now stands, grantees have no way to report a student's writing score; data on the SAT will thus be incomplete unless the form is modified. We propose to add an additional field to Section IIA for the writing score only, placing the field at the end of the form so as to require only minimal adjustment to grantees' databases. The change will not impose any additional data collection burden; grantees that have data on students' math and verbal SAT scores, which are currently requested, will also have data on the students' writing scores. (Section IIB, for Veterans Upward Bound, would be unchanged; TRIO has never requested SAT scores for VUB students since VUB participants are older and typically do not take the SAT.)
